Vansh Singla

+91 9817844744 | vanshsingla009@gmail.com | GitHub: vanshaggrwal | Yamunanagar, Haryana

Profile

Software Developer with full-stack experience and growing AI/ML expertise. Skilled in building scalable web and AI-driven applications using React.js, Node.js, and Python. Experience with NLP, embeddings, and API integrations for intelligent systems. Strong in data structures, system design, and performance optimization.

Education

Bachelor of Engineering, Computer Science 2021–2025
Chitkara University, Punjab
CGPA: 8.88

Skills

- **Languages:** JavaScript, Python, Java, C++, HTML, CSS, TypeScript
- **AI/ML & Data:** Machine Learning, NLP, Resume Parsing, Text Embeddings, Cosine Similarity, Prompt Engineering, NumPy
- **Frameworks:** React.js, Next.js, Node.js, FastAPI, Express.js
- **Databases:** MongoDB, SQL
- **Tools:** Git, GitHub, Postman, OpenAI API
- **Concepts:** REST APIs, Authentication, System Design, API Integration

Work Experience

Gryphon Academy Pvt. Ltd. (Software Developer Intern) Feb 2026 – Present

- Built a responsive mock test web application with real-time analysis using React and Firebase
- Developed ERP-based certification system with role-based dashboards
- Implemented student management and progress tracking features

Aurus Tech Pvt. Ltd. (Associate System Analyst) Oct 2025 – Jan 2026

- Analyzed production issues and system logs
- Monitored platform performance and payment workflows
- Collaborated with teams to resolve incidents

Datagami Technologies Pvt. Ltd. (Software Developer Intern) Jan 2025 – Sept 2025

- Developed features using React.js and Next.js
- Implemented authentication and validation flows
- Improved UI responsiveness and accessibility

Projects

AI Resume Analyzer Feb 2026

- Built full-stack AI system using React, Node.js, and FastAPI
- Implemented NLP preprocessing and skill extraction using spaCy
- Used sentence-transformers for embeddings and cosine similarity
- Generated match scores and missing skill insights

Blogify March 2025

- Full-stack blogging platform with authentication
- Designed REST APIs and optimized database queries

Certifications

- Data Analytics Job Simulation – Deloitte
- Cyber Job Simulation – Deloitte
- Advanced Web Development – Coding Ninjas
- Object Oriented Software Engineering – Coursera
- Cloud Computing – Coursera
